3555 Red School Lane,
APT 102
Caledonia, MI
United States

PROFILE

Cybersecurity graduate with 6+ years of IT experience, beginning as a high school IT intern and advancing up internally to a cybersecurity analyst role post-graduation. Strong background in many aspect of IT, including security, servers, networking, IAM, and more. Proven leadership as President of Eastern Michigan University's Information Assurance Student Association, leading teams in competitive security events against top universities.

EXPERIENCE

Cybersecurity Analyst, First Brands Group — 2023-Current

Implemented and maintained security tools such as SentinelOne, Rapid7, and Egress Email Security, continuously improving their effectiveness. Collaborated with the SOC to resolve security incidents and worked closely with server administrators to apply patches and system updates. Deployed and secured critical infrastructure, including Active Directory, Certificate Authority, DHCP, DNS, and RADIUS servers. Assisted in migrating users from on-premises Active Directory and Exchange to Office 365. Played a key role in a facility-wide network overhaul, enhancing subnet organization and overall network security.

Cybersecurity Management Consulting Intern, Plante Moran — Summer 2023

Analyzed and evaluated customer's security posture, including ensuring that multiple forms of compliance were met. Performed compliance auditing for a variety of corporate businesses and organizations.

IT Intern/HS CO-OP, Walbro Engine Management — 2018-2023

Performed Windows server maintenance and monitoring of security events. Developed and maintained a Sharepoint server that was used globally both internally and externally. Provided daily helpdesk support in addition to updating and upgraded employee computers, including new workstations. Focused on excellent customer service and communication skills.
